Deluxe Chalet

Go where you like...when you like...

CampTRAX currently have 2 models of rooftop campers available to make your trip easy and comfortable. Rooftop camping is the solution for those who don't want to tow a trailer or have limited room. Ideal for the short weekend away or an extended outback trip they are well ventilated, practical and easy to set up or pack away in minutes. Both will provide protection from the sun or rain but still let that cool breeze through at night. Our new deluxe model will even let you gaze at the stars through the new skylight. Suitable to mount on most cars they are perfect for those who want to be off the ground away from the creepy crawlies.

Lights are not included but can be purchased separately in 5m rolls
White or RGB available plus adaptors
